

REMARKS

Claims 1, 3-11, 13, 15-31, 37-38, 40-47 and 56-63, as amended, and new claims 64-67 appear in this application for the Examiner's review and consideration. Claims 1 and 60 were amended to reinstate that the active agent is testosterone. Claims 64 and 65 relate to testosterone as the active agent while claims 66 and 67 are method claims directed to treating hormonal disorders in a subject by the administration of testosterone. No new matter has been introduced by the addition of these claims.

For the reasons set forth in Applicants' prior response, it is respectfully submitted that the entire application is now in condition for allowance, early notice of which would be appreciated. In the event that the Examiner does not agree that all claims are now allowable, a personal or telephonic interview is respectfully requested to discuss any remaining issues in an effort to expedite the eventual allowance of this application.
